FPIs with SP would need to provide NIL report to DDP / Custodian on a daily basis in case there are no holdings by the FPI / SP. The first reporting will happen on 18th November 2025 by 1500 IST.

Existing SPs who are in breach of concentration limits within first 90 calendar days from November 17, 2025 EOD shall be required to bring down the exposure by February 15, 2026, unless they fall under any of the exempted categories. During this exemption, there is no requirement for FPIs to implement any blocks on the SP:

- Such SPs shall not be subject to any restrictions until 10 trading days before February 15, 2026. i.e. any SP breaching the concentration criteria by January 30, 2026, will have up to February 15, 2026, to realign their portfolio. However, any breaches incurred post January 30, 2026, will have 10 trading days for realignment e.g. a breach incurred on February 6, 2026, will need to be realigned by February 20, 2026 (for the purpose of this example all days other than weekends have been considered as trading days)
 - For SPs who have not realigned their portfolio by February 15, 2026, the mandatory disclosure would begin from February 16, 2026. SPs would be required to provide additional disclosures to the DDPs within 30 trading days from February 15, 2026.
- I. In case of breach of limits by such SP (as may be identified by the FPI or by the DDP / custodian based on the daily SP level holdings sent by the FPI), FPI shall ensure that no further purchases are undertaken by such breaching SP in the equity securities belonging to such SCG and re-align its investment at the segregated portfolio level within the prescribed timeline.
 - II. FPI is required to confirm such breach to its DDP/Custodian immediately and status of its re-alignment pursuant to end of re-alignment period.
 - III. Exemptions as covered in SOP/SEBI circular will be applicable at the SP level. New segregated portfolios would be eligible for an exemption of 90 days on the same basis as available to new FPIs.
 - IV. In case, the investments are not re-aligned within prescribed timeline by the breaching SP, it would be required to provide granular disclosure pertaining only to such SP to its DDP/Custodian within SEBI prescribed timeline and format as covered in this SOP.
 - V. FPIs with SP that invest only in instruments other than listed equities shall not be under obligation to provide daily reports mentioned in the SOP subject to the FPI providing an undertaking in this regard.

Blocking the FPI account for fresh purchases of the said security / corporate group upon detecting further allocation of same security / corporate group in the SP in which a breach has been detected: where a concentration breach has been detected and reported for an SP, and the FPI has on the subsequent days allocated further securities of such corporate group to the SP then the FPI account may be blocked for any further purchases of the corporate group. For example, if the first breach in concentration limits is identified based on report of 19th November (based on settled holdings of 18th November), any

trades executed 20th Nov onwards will be checked if it is allocated to the same SP. If yes, thereafter the FPI account would be blocked for the corporate group.

Such block on the FPI would be kept in place until remedial measure in the form of re-allocation of the purchase (in corporate group having >50% concentration) is done to another SP in which the concentration breach does not exist.

Please refer to the example below to illustrate the blocking described above:

Trade Date	Confirmation and Settlement Date	Reporting date	Scenario	Actions from DDP/ Custody after reporting
17-Nov-25	18-Nov-25	19-Nov-25	50% breach in one SCG in one SP	Identify the breach on 19th and inform FPI. Confirm the transactions.
20-Nov-25	21-Nov-25	22-Nov-25	Allocation done to the same SCG in which the breach was detected on 19 November.	Block all trades for the FPI from trade date 22 November onwards.

Since FPIs are required to provide the SP level portfolio allocation by SD+1 (Day 3) 3pm IST, if the FPI purchases the same security / corporate group on the next day (Day 2), that trade would already have been confirmed by the custodian on SD (Day 3) by 7.30am prior to receipt of the FPI allocation information.

Further, similar measure of blocking the FPI account for purchases would be done in cases where an FPI which is liable to provide granular disclosures for the specified SP fails to provide the same within the stipulated timelines. Such purchase block would be applied on the FPI account until the entire portfolio of the SP is liquidated.

Transfer / reallocation from one share class to another share class by the FPI without movement in the India assets would be accepted as part of realignment.

The standard reporting format applicable to all non-exempt FPIs having segregated portfolios is as per attached template.

An illustrative example for explaining the manner of providing the disclosure is provided below:

1. The names of all natural persons / entities having direct ownership, economic interest, and control rights in the FPI, without any threshold, have been identified by the FPI and provided to its DDP / Custodian in the below mentioned format. For the purpose of this illustration, the below mentioned structure has been considered:

- As per the above illustrative structure, FPI X is controlled by Control Ltd and FPI X is completely owned by Own Limited.
- The economic interest in FPI X rests with Economic 1 Ltd, Economic 2 Ltd, Economic 3 Ltd, SWF 1 and PRF 1 Ltd in the percentages as mentioned in the diagram.
- Assuming that FPI X is a reportable client, the details of all the above mentioned entities which have control, ownership and economic interest in FPI X need to be provided in Table 1 of the format in the manner as illustrated below.
- Under Table 2 of the below illustration, the granular details of entities / persons having control, ownership and economic interest in the entities that are mentioned in table 1 need to be provided.

- Accordingly, the details of Mr. A and Mr. B who have the control, ownership and economic interest in Economic 1 Ltd have been mentioned in Table 2. Likewise, the details of Mr. D, Mr. C and Mr. E who have control, ownership and economic interest respectively in Economic 2 Ltd have been provided in Table 2. The details of Mr. F who has control, ownership and economic interest in Economic 3 Ltd have been provided in Table 2.
- Since SWF 1, which is a Sovereign Wealth Fund and PRF 1 Ltd which is a regulated public retail fund, are exempted entities, the further granular details of the same need not be included in Table 2.
- Own 1 Ltd which has control, ownership and economic interest in Own Ltd, and Own 2 Ltd which has ownership and economic interest in Own Ltd are also mentioned in Table 2. Since Own 1 Ltd and Own 2 Ltd are non-individuals, further granular details of these entities are also required to be disclosed until one establishes the natural persons or exempt entities. Hence, the details of Mr. J who has control, ownership and economic interest in Own 1 Ltd, and the details of Mr. K who has control, ownership and economic interest in Own 2 Ltd are mentioned in Table 2.
- Mr. C who has control, ownership and economic interest in Control Limited are also included in Table 2.
